The Atlas GP40-2 is an excellent model of this locomotive, offering smooth operation, fine details, and detail options to match different prototypes.

The GP40 is a 4-axle diesel-electric road-switcher locomotive built by General Motors, Electro-Motive Division between November 1965 and December 1971.

History Edit. The EMD GP40 began as a four-axle diesel locomotive originally intended for freight service, and was one of a series of models introduced in 1966 with
